PEBS -students in good standing

As part of the NS Department of Education - Positive Effective Behaviour Supports initiative (PEBS), staff continue to interact, mentor, model, recognize and celebrate student achievement and behaviour in many positive and proactive ways. Reciprocally, in order for students to participate in many extra- and co-curricular activities, such as attending school events and dances; participating on school teams and clubs; travelling on school outings and trips; etc., students must remain in good standing. Please note that any student who has had a school suspension; office or 'room 20' referral; been truant; and/or missing school work; may not be able to participate and/or may be limited in participating in such school events.
